

For Home Use

# Waste Sorting Guidebook

Starting from April 1, 2024, you are supposed to put out plastic products according to the new rules.

## Ise City Official LINE Account

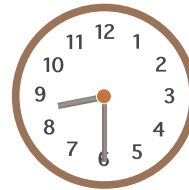

You can check waste sorting information and apply for a fee-based bulky waste collection service through Ise City's official LINE account.

Ise City's waste sorting PR mascots  
"Kamoshika (Serow) Waste Busters"

## Methods and Rules for Putting Out Recyclable and Non-Recyclable Waste in Ise City

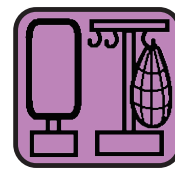

### Three Promises You Are Expected to Keep

- Put out your waste by **8:30 a.m.** on the designated days.

- Put out your waste after sorting it according to the designated **methods**.

- Put out your waste at the designated **sites**.

# Waste Reduction Campaign

We introduce you to  the methods to reduce waste.

## Method ①

Drain kitchen waste thoroughly!!

## Method ②

Eliminate food waste!!

## Method ③

Sort recyclables properly!!

## Proportion of Burnable Waste Generated from Households in Ise City Ise City's Current Situation

2022 Survey on the Composition of Burnable Waste Generated in Everyday Life

Wow!! It's a mess!! Food waste like leftovers and unused food as well as recyclables are everywhere!!

At this rate, waste will keep increasing indefinitely. Come on, let's join the waste reduction campaign together!!

Burnable waste 22.84%  
Disposable diapers 7.52%  
Rigid plastic 3.71%  
Weed clippings and pruned branches 3.13%  
Non-burnable waste 1.17%  
Non-recyclable materials 0.96%

Burnable waste and others 39.33%

Kitchen waste 24.25%

Food waste 12.31%

Recyclables 24.11%

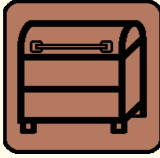

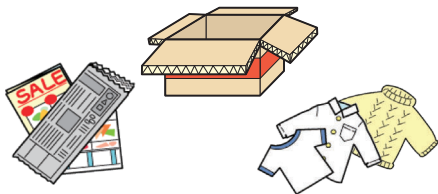

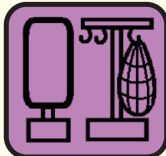

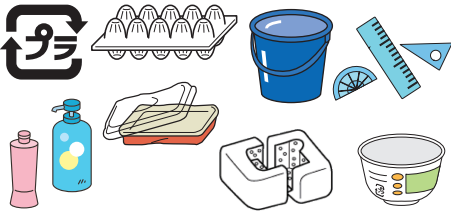

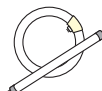

Leftovers 5.05%  
Unused food 7.26%

Magazines and miscellaneous paper waste	7.49%	Newspapers and advertising inserts	1.70%	PET bottles	0.42%
Plastic containers and packages	9.15%	Cardboard boxes	0.77%		
Textiles	3.97%	Paper cartons	0.61%		

# Types of Recyclables and Non-Recyclables and Their Collection Sites

★You can put out recyclables at waste collection hub stations for recyclables as well. For details, please refer to pages 25 and 26.

★The collection frequency is a rough indication. It may vary due to public and business holidays.

# Burnable Waste

Waste collection points

Twice a Week

## ① Collectible Items (Items You May Put Out)

Kitchen waste, etc.

Cotton products  
(stuffed toys, zabuton cushions, etc.)

Daily commodities (leather products, disposable lighters, etc.)

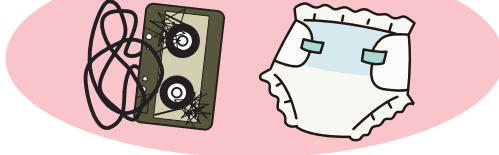

★ Empty disposable lighters before putting them out.

Pruned branches, etc.  
(pruned branches, weeds, etc.)

Others (CDs, videotapes, desiccants, disposable diapers, colostomy bags, etc.)

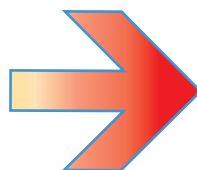

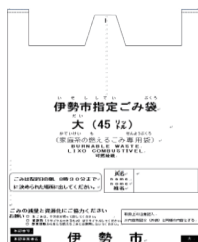

Caution!!

★ Remove dirt from disposable diapers before putting them out.  
★ Return syringe needles, etc. to the hospital or pharmacy from which you got them.

## ② How to Put Them Out

Put them in a waste bag designated by Ise City. At that time, be sure to close it tightly.

★ Come to the designated site.

## ◎ Key Points to Remember

### Drain them!

◎ Be sure to drain them before putting them out!!

When a designated waste bag is too small for pruned branches, etc.

Cut pruned branches, etc. to a proper size and bundle them together with a string so that they can be carried in one hand. Each bundle of pruned branches, etc. needs to be less than 60 cm in length and 10 cm or less in thickness, and should be labeled with the word "ごみ" (waste).

### How to put out oils, etc.!

◎ Make dirty oils soak into a piece of cloth or paper or solidify them before putting them in a designated waste bag. (Do not put out liquid oils in bottles, etc.)

## ③ Uncollectible Items (Items You May Not Put Out)

◎ Waste that is put out in an undesignated waste bag

◎ Waste that is too large for a designated waste bag

◎ Do not classify recyclables as burnable waste!!

### Kamoshi's Soliloquy ①

Ise City offers subsidies for the purchase of garbage disposals!!  
For details, please check the website of Ise City.

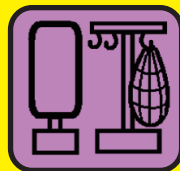

伊勢市 (Ise City) 生ごみ (kitchen waste)

Search

# Cans and Metallic Products

Once a Month

Waste collection stations for recyclables

## ① Collectible Items (Items You May Put Out) ★ Metallic objects with a length of less than 60 cm

Small-sized home appliances  
(microwave ovens, oil heaters, electric fans, etc.)

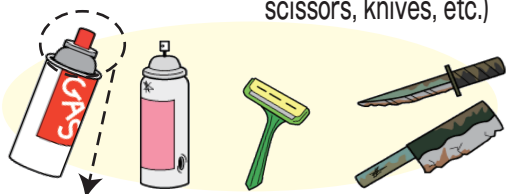

★ Remove batteries and classify them as "batteries and fluorescent tubes."

Cans (aluminum, steel and food cans, etc.)

Dangerous items (gas cartridges, spray cans, scissors, knives, etc.)

★ Remove caps and classify them as "plastic products."

Others

(incandescent bulbs, glow lamps, small metallic products, objects with inseparable metallic parts, etc.)

Collectible Items

- Incandescent bulbs
- Halogen bulbs
- LED lamps

★ Exclude fluorescent tubes from this type of waste.  
→ Classify them as "batteries and fluorescent tubes."

## ② How to Put Them Out

★ Cans

★ Rinse them lightly.

★ Metallic products

★ For safety, wrap the edges of kitchen knives, razors, etc. in foil or put them in a wide-mouthed can.

★ Put them into the designated boxes.

★ Classify them as "bulky waste" if their length is over 60 cm.

★ You can put cans and metallic products into whichever box you like because they are collected together.

## ◎ Key Points to Remember

Take them out of your bag!

When the designated boxes are already filled with waste!

★ Take them out of a plastic bag, etc.

★ If the designated boxes are already filled with waste, label your own waste with the word "ごみ" (waste).

## ★ How to Put Out Oil and Fan Heaters

- ① Remove or use up kerosene.
- ② Remove batteries.

Be sure to follow the rules to avoid possible accidents.

## ★ How to Put Out Gas Cartridges, Spray Cans, etc.

Major types of spray cans

○ Empty them and put them out without making holes in them!

Outdoor gas cylinders, etc.

Pesticides, etc.

Spray air fresheners, spray antiperspirants, etc.

★ If you find it difficult to empty them, label them with words, such as "中身が入っています" (Gas remains inside), using a piece of paper, etc.

**Danger**

Be sure to follow the rules to avoid possible fire accidents.

Note: Ise City does not collect personal computers and the four designated types of home appliances. For details, please refer to pages 15 and 16.

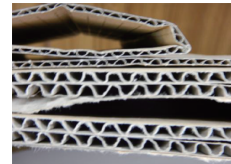

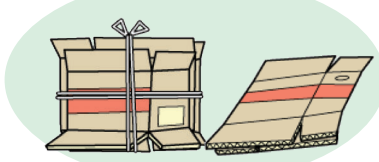

# Paper

## ① Collectible Items (Items You May Put Out)

Newspapers and advertising inserts

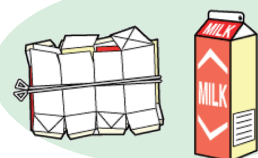

Cardboard boxes

★Cardboard boxes with a wavy cross-section

Drink cartons

★Those with a capacity of 200 mL or more  
★Those with a white interior

★Classify those with a silver interior as "burnable waste."

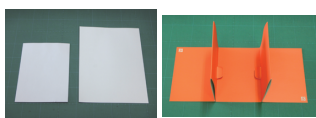

Magazines and miscellaneous paper waste

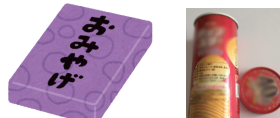

What Is "Miscellaneous Paper Waste?"

★Miscellaneous paper waste refers to any paper except "newspapers and advertising inserts," "cardboard boxes," "drink cartons" and "magazines."

Mat boards and paper trays

Confectionery boxes

Envelopes and postcards

Writing paper and notepads

★"Miscellaneous paper waste" includes small pieces of paper like sticky notes as well.

Others

Wrapping paper

Paper bags

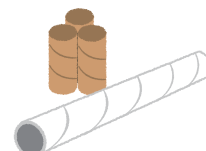

★Be sure to put out "paper bags" as "paper" after removing their handles if the handles are made of non-paper materials.

Tissue boxes

★Classify thin plastic films placed around the openings of tissue boxes as "plastic products."

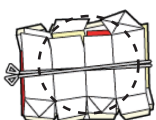

Toilet paper and plastic wrap tubes

## ② How to Put Them Out

★Sort them by item and bundle each group crosswise with a string (made of paper if possible).

★Rinse and dry drink cartons and sort them by capacity. (Bundle drink cartons with the same capacity (1 L, 500 mL, etc.) together.)

★On rainy days, put them in a transparent plastic bag, etc. to prevent them from getting wet.

★Come to the designated site.

Waste collection station for recyclables

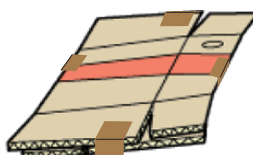

★There is no collection container.

## ◎ Key Points to Remember

★Do not put out boxes before breaking them down.

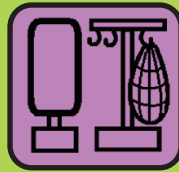

★Break down and fold boxes.

★As shown in the illustration on the left, use minimal packing tape to bundle folded boxes.

★Remove fasteners, etc. from cardboard boxes.

# Once a Month

Waste collection stations for recyclables

## ◎ How to Put Out “Miscellaneous Paper Waste” That Is Small in Size

**1** When you have a lot of small miscellaneous paper waste that is difficult to bundle together with a string

**2**

Insert it between pages of a closed magazine, etc.

Put it in a paper bag (with no glossy surface) and fold the opening of the bag a couple of times to prevent it from getting out of the bag.

Put it in a paper bag (with a paper handle).

**3**

Using a string (made of paper if possible), bundle the magazine together with some other books, pieces of thick paper, etc.

Using a string (made of paper if possible), bundle the closed paper bag together with some other books, pieces of thick paper, etc.

Using a string (made of paper if possible), tie the paper bag to prevent the paper waste from getting out of the bag.

Paper

## ③Uncollectible Items (Items You May Not Put Out)

**The following types of paper are uncollectible even though they are labeled with this mark!!**

Paper containers and wrapping paper for food and detergents and coated paper (for waterproofing) cannot be **recycled** into new paper. Classify them as “**burnable waste**.”

### ☆Paper with Odors, Greasy Dirt, etc.

#### Odors

★Paper with strong odors cannot be recycled because they remain persistently.

Boxes for incense sticks, etc.

Boxes for detergents

#### Greasy dirt

★Paper with greasy dirt, etc. cannot be recycled.

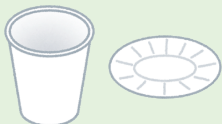

Pizza delivery boxes

★Put them out as “paper” after removing unclean parts stained with food.

### ☆Waterproof and Vinyl-Coated Paper, etc.

#### Coated paper

★Coated paper cannot be recycled because its coatings are not removable even through a recycling process.

Waterproof paper  
Paper cups and plates

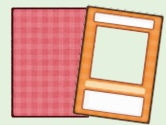

Paper cups for  
yoghurt, ice cream,  
etc.

Paper bags for  
pet food and rice

Photographs and  
albums

Vinyl-coated paper

Paper containing a thin plastic film that is visible when pulled, tough paper that does not tear even when pulled, cards for card games, etc.

### ☆Others

★The following types of paper cannot be recycled because they cannot maintain their purity due to their water solubility, use of special chemicals, etc.

Sanitary paper  
kitchen paper and  
tissues

Washi (traditional Japanese paper)  
Colored paper and envelopes made of washi (traditional Japanese paper) for congratulatory gifts

Thermal paper  
Receipts and  
fax paper

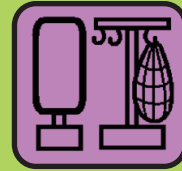

Carbon paper  
Carbon paper used for  
shipping labels, receipts, etc.

Gold- or silver-coated paper  
Silver paper used for cigarettes and chewing gum, gold- or silver-coated paper boxes and paper lids of instant noodle cups

# Cloth

Waste collection stations for recyclables

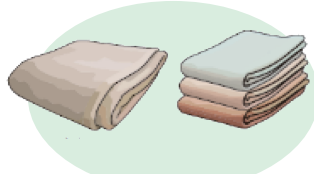

Once a Month

## ① Collectible Items (Items You May Put Out) ★Clothes and cloths

Clothes

Cloths

★Put them out after washing them.

## ② How to Put Them Out

★Come to the designated site.

★Sort them by item and bundle each group crosswise with a string.

★There is no collection container.

Waste collection station for recyclables

## ◎ Key Points to Remember

★Classify dirty or ripped clothes and cloths as "burnable waste."

## Clothes become difficult to recycle if they get wet!!

- "Put them out on sunny days if possible."
- "Double-bag them."
- "Put them out at a waste collection hub station for recyclables."

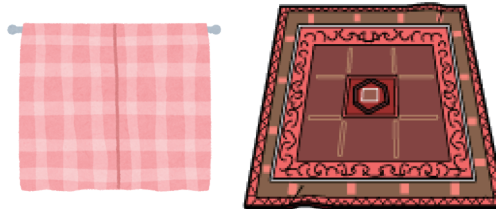

We appreciate your cooperation!!

## ③ Uncollectible Items (Items You May Not Put Out)

① Feather and cotton products (pillows, *hanten* coats, stuffed toys, etc.)

② Special textiles (fireproof ones, etc.)

※Classify carpets with a length of over 60 cm as "bulky waste."

③ Those made with any other materials (indoor shoes and leather products)

④ PET resin products (workwear, uniforms, etc.)

★Those made with PET resin

⑤ Those with someone's name on them (gym uniforms, etc.)

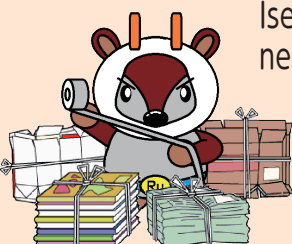

★Classify them as "cloth" if the name part is removable.

Classify all of those things as "burnable waste!!"

## Kamoshi's Soliloquy ②

Ise City provides incentives for waste collection activities for recycling conducted by neighborhood associations, children's clubs, etc.!

For details, please check the website of Ise City.

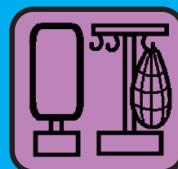

伊勢市 (Ise City) 再生資源 (Recycled resources)

Search

# Plastic Bottles Labeled with the PET Mark (PET Bottles)

Waste collection stations for recyclables

Once a Month

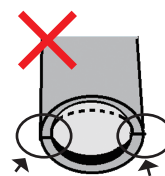

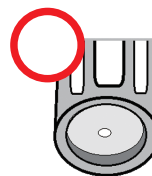

## ① Collectible Items (Items You May Put Out)

PET bottles

★PET bottles are labeled with this mark.

[PET bottle] [PVC bottle]

As shown above, only plastic bottles without the horizontal lines are classified as "PET bottles."

## ② How to Put Them Out

★Put them into the blue net.

## ◎ Key Points to Remember

Remove foreign objects!

★Remove foreign objects and rinse PET bottles thoroughly if they are very dirty.

Take them out of your bag!

Do not take the net home!!

★Take them out of a plastic bag, etc.

## ③ Uncollectible Items (Items You May Not Put Out)

This mark just indicates what material the product is made of. Do not classify plastic products labeled with it as "PET bottles."

→ Classify them as "plastic products."

### ◎ PET Bottles Classified as Different Types of Waste

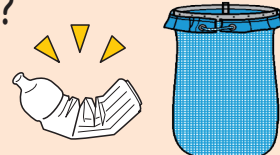

PET bottles that previously contained oil products, such as cosmetics, medicines, detergents, shampoos and sauces for grilled meat, are not collectible as "PET bottles" because they cannot be properly recycled due to their difficulty in becoming completely free from dirt and odors even through cleaning.

### Kamoshi's Soliloquy ③

### "Bottle to Bottle" (Closed-Loop Recycling)??

By recycling PET bottles into new PET bottles, resources can be reused repeatedly in a cycle. Therefore, we kindly ask for your cooperation in removing caps and labels.

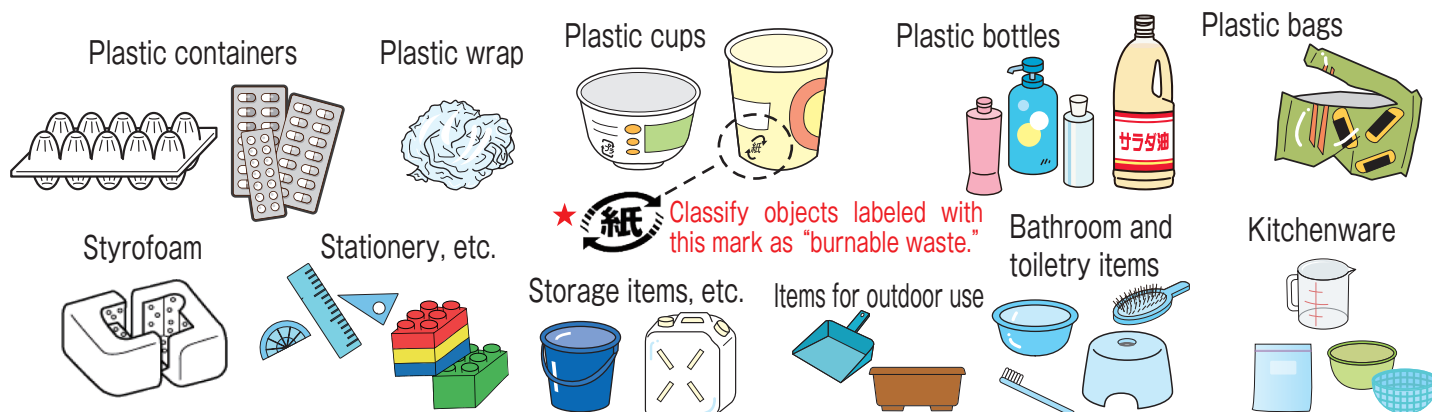

# Plastic Products

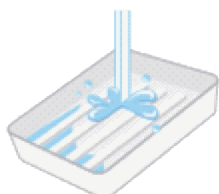

## ① Collectible Items (Items You May Put Out)

Objects that are made only of plastic and contain no metallic parts, rubber, batteries, etc.  
Objects with a length of less than 50 cm

## ② How to Put Them Out

★ Rinse off or wipe away dirt, such as solid or adherent residues.

Take them out of your bag!!

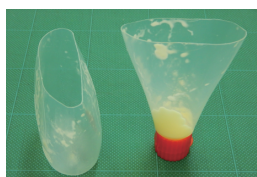

★ Take them out of a plastic bag, etc.

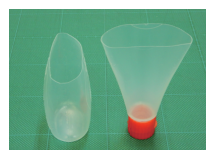

★ Put them into the orange net.

### ◎ How to Rinse Them

◎ You can rinse ketchup and toothpaste tubes, etc. more easily if you cut them in half.

Do not take the net home!!

### ◎ How to Store Them

Put out plastic waste in a small bundle!

Plastic products are difficult to store because they tend to occupy much space. They can be stored more easily if you fold and bind them or cut them with scissors.

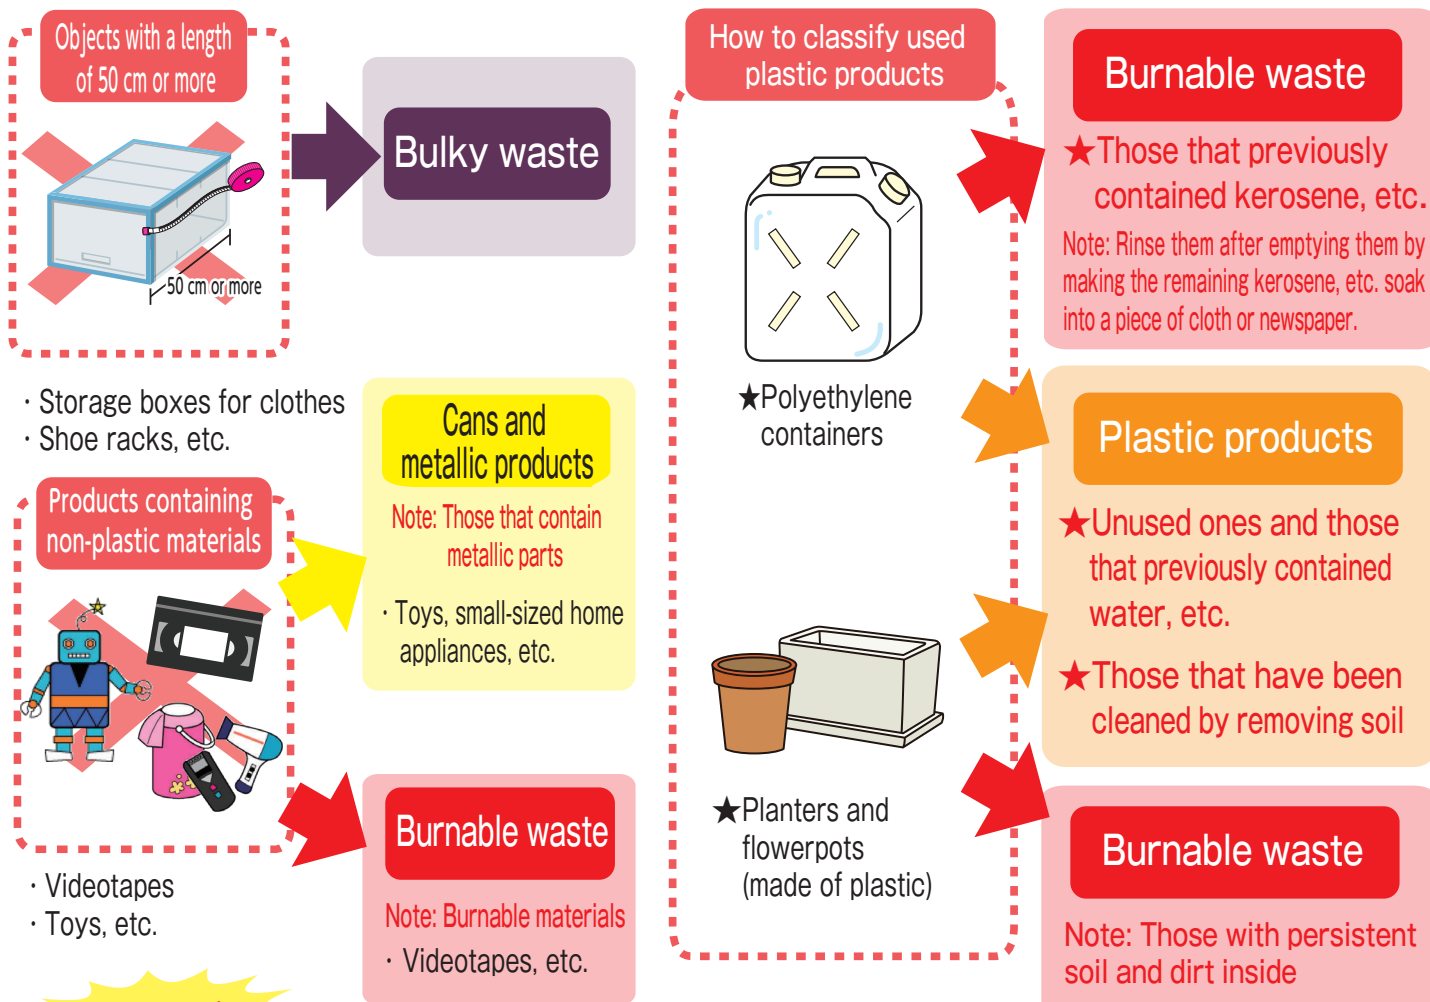

# Once a Week

Waste collection stations for recyclables

## ③Uncollectible Items (Items You May Not Put Out)

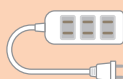

### Special caution

Those that could pose a risk of ignition, injury, etc.

Batteries including rechargeable ones

Small-sized electronic devices

Dangerous items

Batteries and fluorescent tubes

Insulate them electrically.

Cans and metallic products

Note: Remove batteries.

Cans and metallic products

Burnable waste

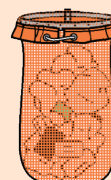

Empty them.

### Kamoshi's Soliloquy ④

### Recycling of Plastic Products

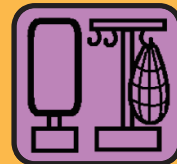

To achieve carbon neutrality, we started recycling plastic products from April 2024. They can be recycled into resources when sorted properly. Therefore, please cooperate in their sorting.

Plastic Products

# Recyclable Glass Bottles

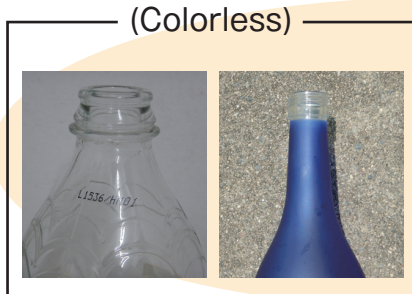

Once a Month

Waste collection stations for recyclables

## ① Collectible Items (Items You May Put Out) ★Drink and food bottles ★Bottles that previously contained cosmetics

★Check the color of their mouths.

★Classify milky white bottles as "glassware and broken glass bottles."

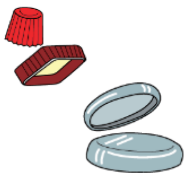

## ② How to Put Them Out

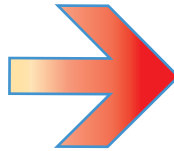

★Remove caps and rinse the inside of bottles lightly.

★Classify caps as "cans and metallic products" or "plastic products."

◎You do not need to remove labels. Put out bottles without removing inner plugs from their mouths!!

★Put them into the designated boxes.

★Sort them by color.

Colorless bottles Brown bottles Bottles of other colors

## ③ Uncollectible Items (Items You May Not Put Out)

◎Bottles with foreign objects inside

★Remove foreign objects and dirt.

→ Classify bottles with persistent dirt as "cans and metallic products."

◎Broken bottles

Classify them as "glassware and broken glass bottles."

◎Bottles that previously contained chemicals and agricultural pesticides

◎Bottles with non-removable caps

★Classify bottles that previously contained chemicals, agricultural pesticides, etc. as "cans and metallic products."

★Classify bottles with caps that are not removable because of residues like cosmetics (such as nail polish) as "cans and metallic products."

### Kamoshi's Soliloquy ⑤

## "3Rs" as the Fundamental Principle of Waste Reduction

Red Kamoshi

### 【Reduce】

Reducing the amount of unnecessary waste as much as possible

Blue Kamoshi

### 【Reuse】

Reusing used things repeatedly without disposing of them as waste

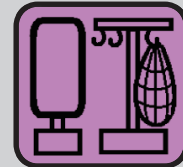

Pink Kamoshi

### 【Recycle】

Recycling used things into resources to make new products

# Glassware and Broken Glass Bottles

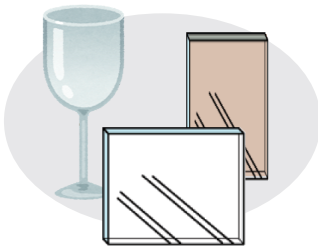

Once a Month

Waste collection stations for recyclables

## ① Collectible Items (Items You May Put Out) ★Glass objects made with no other materials

Glassware

Milky white

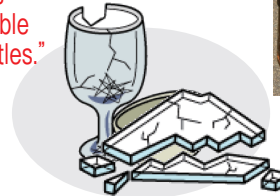

★Check the color of their mouths.

Colorless

★Classify colorless bottles as "recyclable glass bottles."

Broken glass bottles

★Include "recyclable glass bottles" in this type of waste if they are broken.

## ② How to Put Them Out

★Put them into the designated box.

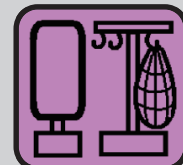

## ③ Uncollectible Items (Items You May Not Put Out)

★Classify glass objects with non-glass parts (such as lids of glass pots), crystal products, mirrors, etc. as "cans and metallic products."

# Ceramics

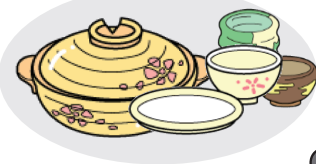

Once a Month

Waste collection stations for recyclables

## ① Collectible Items (Items You May Put Out) ★Ceramics made with no other materials

Ceramics

Flowerpots

★Exclude tiles, including roof tiles, from this type of waste!!  
→Classify them as "debris."  
Classify unused tiles as "ceramics."

## ② How to Put Them Out

★Put them into the designated box.

## ◎ Key Points to Remember

Remove non-ceramic parts!!

★Put them out after removing non-ceramic parts.

★Sort their handles, tea strainers, etc. by material.

Remove stones and soil!!

★Put them out after removing stones and soil from inside!!

★Ise City does not collect stones and soil.

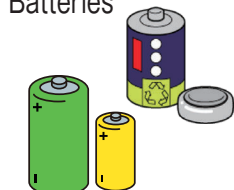

# Batteries and Fluorescent Tubes

Waste collection hub stations for recyclables

## ① Collectible Items (Items You May Put Out)

### Batteries

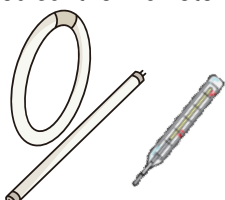

★ Insulate batteries electrically using vinyl tape, etc.

## ② How to Put Them Out

Put them into the designated container!!

### Fluorescent tubes and mercury medical thermometers

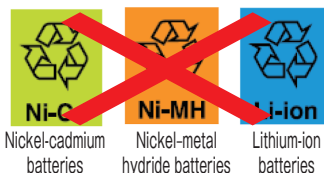

★ Medical thermometers containing mercury

Put them into the designated container!!

## ③ Uncollectible Items (Items You May Not Put Out)

### Small-sized rechargeable batteries

→ Put small-sized rechargeable batteries into recycling boxes at retailers.

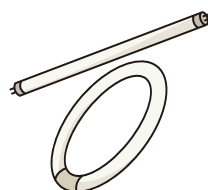

### Fluorescent tubes

Classify these items as "cans and metallic products"

- Incandescent bulbs
- Halogen bulbs
- LED lamps

## ◎ Key Points to Remember

→ Include them in this type of waste even if they are broken. Exercise extreme caution for safety.

# Frying Oils

## Caution!!

★ Frying oils are not collectible at Kosei Waste Collection Hub Station for Recyclables!!

Waste collection hub stations for recyclables

## ① Collectible Items (Items You May Put Out)

★ Vegetable oils only

(Exclude thick and strong-smelling oils, such as sesame and olive oils, from this type of waste.)

★ Exclude animal oils, such as lard, from this type of waste.

## ② How to Put Them Out

Put them into the designated container!!

## ◎ Key Points to Remember

★ As shown below, pour frying oils into the collection container. Be careful not to spill them.

◎ Do not pour dirty oils into the container.

Make dirty oils soak into a piece of cloth or paper or solidify them before putting them in a designated waste bag. (Do not put out liquid oils in a bottle, etc.)

# Bulky Waste

Waste incineration plant  
(Ise Wide-Area Environment Association)

## ① Collectible Items (Items You May Put Out)

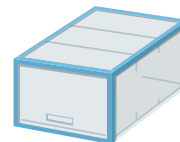

Furniture, etc. ★Objects with a length of 60 cm or more Timber

### Size of collectible timber

Length: 60 cm to 4 m Thickness: 10 cm or less  
Note: Classify timber with a length of less than 60 cm and a thickness of 10 cm or less as "burnable waste."

Plastic products

Objects with a length of 50 cm or more

## ② How to Put Them Out

### ① Deliver them to the waste incineration plant operated by Ise Wide-Area Environment Association (disposal fee charged).

Address: 653 Nishitoyohamacho, Ise City (Phone: 37-1218)  
Days of operation: Weekdays (except year-end and New Year holidays)  
Reception hours: 8:30 to 16:45

Ise City's official  
LINE account

### ② Request fee-based bulky waste collection (reservation required).

If you have difficulty in delivering them to the waste incineration plant on your own, you can use a fee-based bulky waste collection service after making a reservation. For details, please contact the Waste Reduction Division of Ise City (phone: 37-1443). Additionally, you can make an application even through Ise City's official LINE account.

# Debris

Ise and Obata Waste Disposal Centers

## ① Collectible Items (Items You May Put Out)

Concrete blocks

Tiles (including roof tiles) and bricks

★We accept waste dismantled only by private individuals!!  
★We do not accept waste delivered by business operators!!  
★We do not accept "soil and sand" as well as "stones."  
→Consult a retailer, etc.

## ② How to Put Them Out

★Deliver them to either of the following sites (disposal fee charged).

### ① Ise Waste Disposal Center 2891-5 Asamacho, Ise City

Days of operation : Mondays and Tuesdays (except public holidays and year-end and New Year holidays)  
Reception hours : 9:00 to 12:00 and 13:00 to 16:30  
Contact information : Ise City Waste Reduction Division (phone: 37-1443)

### ② Obata Waste Disposal Center 92-1 Obatacho-Shimura, Ise City

Days of operation : Wednesdays (except public holidays and year-end and New Year holidays)  
Reception hours : 9:00 to 12:00 and 13:00 to 16:30  
Contact information : Ise City Waste Reduction Division (phone: 37-1443)

# Waste That Ise City Does Not Collect

The following items can neither be collected by Ise City nor delivered to the waste incineration plant. Please ask a professional waste disposal company or a retailer for their disposal.

## ★ Main Items

Chemicals and agricultural pesticides

★ Classify bottles that previously contained chemicals, agricultural pesticides, etc. as "cans and metallic products."

Household medical waste

★ Syringe needles and tubes with needles

Gas cylinders

Waste oils, kerosene, etc.

### Fire extinguishers

You can contact Fire Extinguisher Recycling Promotion Center Co., Ltd. to gain information concerning consultation offices in your area.

Reception hours: 9:00 to 12:00 and 13:00 to 17:00  
(except Saturdays, Sundays and public and business holidays)

Website: <http://www.ferpc.jp>

Phone: 03-5829-6773

### Motorbikes

Please gain information concerning their disposal through a motorbike shop dealing with disused motorbikes, a designated collection site, etc. For details, please call the "Call Center for Motorbike Recycling" at 050-3000-0727.

Reception hours: 9:30 to 12:00 and 13:00 to 17:00  
(except Saturdays, Sundays, public holidays and year-end and New Year holidays)

For details, please contact Japan Automobile Recycling Promotion Center (public interest incorporated foundation).

<http://www.jarc.or.jp/motorcycle/>

## Personal Computers

Ise City does not collect disused home computers. Therefore, please dispose of them as follows.

Desktop personal computers  
(except monitors)

LCD monitors

Laptops

CRT monitors

★ Classify peripheral devices, such as external hard disk drives and printers, as "cans and metallic products."

### Method 1 Request ReNet Japan to collect those items.

You can request ReNet Japan, an Environment Ministry-certified waste collection operator affiliated with Ise City, to collect those items. Disposal fees are waived if you ask this operator for their collection. Please take advantage of this service.

ReNet Japan <https://www.renet.jp>

Note: The erasure of data may require a fee. Note: The disposal of monitors with cathode-ray tubes may require a fee.

### Method 2 Request the manufacturer of your computer to collect those items.

PC recycling mark

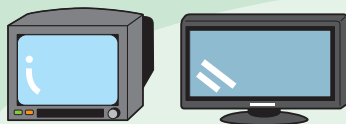

Contact information: PC3R Promotion Association (general incorporated association) (<https://www.pc3r.jp>)  
Phone: 03-5282-7685

Note: Recycling fees are required for personal computers without the PC recycling mark.

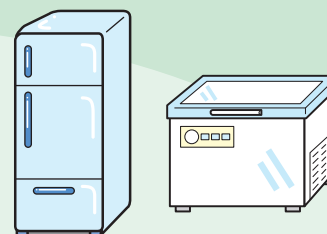

## Four Designated Types of Home Appliances

According to the Home Appliance Recycling Law, you are required to return the following items for recycling by any of the following methods.

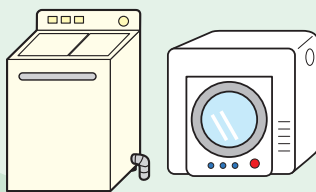

Televisions

Refrigerators and freezers

Washing machines and dryers

Air conditioners (including outdoor units)

## How to Return Those Items to Their Manufacturers, etc.

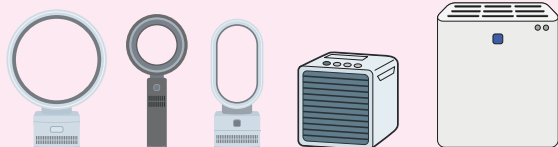

- Method ① Request the retailer where you bought those items (or will buy a new one) to collect them. At that time, pay recycling, collection and hauling fees to the retailer.
- Method ② Purchase a "home appliance recycling ticket" at a post office and deliver those items to the "designated collection site" in Ise City.
- Method ③ Request a general waste collection and hauling company licensed by Ise City to collect those items. At that time, pay recycling, collection and hauling fees to the company.

## Designated Collection Site

Natsuyama Kinzoku Co., Ltd.  
2685 Uejicho, Ise City  
Phone: 0596-25-1101

## Confusing Items

Tower fans

Dehumidifiers

Cans and metallic products

- ★Classify them as "bulky waste" if their length is 60 cm or more.
- ★Label them with the words "フロン入り" (Containing chlorofluorocarbons) if they contain chlorofluorocarbons.

Tablet computers

★Delete personal information, etc.

Cans and metallic products

- ★As for those with the PC recycling mark, use PC recycling services. (Consult their manufacturers.)

PC recycling mark

## Sand, Soil and Stones

Sand, soil and stones are not collected by Ise City because they are not "waste" but natural materials. If you wish to dispose of unnecessary soil that was used for gardening or generated through DIY activities in your garden, please consult a retailer, etc.

# Illegal Waste Dumping

**Illegal waste dumping is a crime.**

- Dumping waste at an undesignated site is an illegal action, namely a crime. Violators are subject to severe criminal penalties.

**Create an environment that will prevent illegal waste dumping!**

- Land owners and administrators are expected to make efforts for proper land management by putting up a notice, fence, etc. and removing weeds on a frequent basis.
- If you find illegally dumped waste with the name or address of the violator, please leave the waste as it is and then call Ise Police Station (phone: 20-0110) or the Waste Reduction Division of Ise City (phone: 37-1443).
  - If there is no clue to the identification of the violator, the land owner and administrator are supposed to dispose of the waste by themselves.

## Regarding Small Animals Like Dogs and Cats

- We offer fee-based collection services for carcasses of small animals, such as pet dogs and cats. For details, please call the Waste Reduction Division of Ise City (phone: 37-1443).
- Carcasses of small animals are burned with other types of waste. Therefore, if you wish to hold a funeral for your pet, cremate it or console its soul, please contact a professional.

## Waste from Business Activities

Please ensure that waste is properly sorted and put out by waste generators (business operators) on their own responsibility.

- Please deliver waste from business activities by yourself or request a general waste collection and hauling company licensed by Ise City to collect it. (Refer to the website of Ise City.)
- As for industrial waste, please request an industrial waste collection and hauling company licensed by Mie Prefecture to collect it.

## Outdoor Waste Burning

**Outdoor waste burning is prohibited by law.**

- Violators are subject to severe criminal penalties.
- Outdoor waste burning is prohibited by law except in the case of doing it for agricultural, forestry or fishery purposes from necessity, for having a bonfire, or for burning a small amount of garbage in daily life within legally acceptable limits.

# Waste Classification

- Here is the list of items that are possibly put out as household waste (arranged in the same order as in the Japanese version of this guidebook).
- The following signs represent the 10 types of waste. They will help you sort your waste easily and precisely.  
燃える Burnable waste   
 缶・金 Cans and metallic products   
 ペット PET bottles   
 びん Recyclable glass bottles   
 プラ Plastic products  
ガ・陶 Glassware, broken glass bottles and ceramics   
紙・布 Paper and cloth   
ガレキ Debris   
粗大 Bulky waste   
乾・蛍 Batteries and fluorescent tubes
- As for unlisted items, please ask the Waste Reduction Division of Ise City (phone: 37-1443).
- This list just provides basic guidelines for waste sorting. Some items may be classified differently depending on their quality and size.

	Item	Type	Remarks
あ A	Ice packs (Ice-nons)	<span style="background-color: #ffcccc; padding: 2px;">燃える</span>	
	Clothes irons and ironing boards	<span style="background-color: #ffffcc; padding: 2px;">缶・金</span>	Classify them as "bulky waste" if their length is 60 cm or more.
